

Managed Services Bundle

CPU Venturetech is pleased to offer you our managed services in a bundle with extra benefits!

First leading off with our core services . . .

Check IT. This system filters your email to make sure that no unwanted or virus infested email gets to your systems.

Guardian IT. We watch your network so that you don't have to. We advise you when any of your systems are in need of help and make sure that your network is running at its best.

Restore IT. This system backups up your data encrypted and offsite so that no matter what happens to your location, you are assured that your data is protected and available with multiple generations should you need it.

To this we add . . .

4 Hrs of onsite time per month. This is not a use it or lose it type of service. We WILL be there every month for a total of 4 hrs. It could be 1hr per week, 2hrs every other week, or one 4hr block each month. We will work on anything on your list. It could be cleaning a printer, blowing the dust out of a computer, defragmentation of a hard drive, showing a user how to use Excel, or anything else that you might have.

12x5 Priority Helpdesk support. You get direct access to level 2 support using a dedicated number. No sending you off to India, or another call center in the US. You get us, the same people that you talk to from 8 to 5 and the same people that visit you on your monthly hours. We are familiar with your environment so why ship your support off to someone that has no idea how your location functions?

Obviously the question comes up . . . what does this cost me? Well, let's break it down.

Service	Retail cost
Check IT (10 emails)*	\$35/mo
Guardian IT	\$299/mo
Restore IT (25GB)**	\$125/mo
4Hr Onsite	\$500/mo
Helpdesk	\$600/mo
Total Retail	\$1559/mo
Your Cost	\$1150/mo

That is a savings of over \$400/mo

You save over \$400/mo and you get more services from us! What could be better?

If you have any questions or are ready to sign up for this great offer, Call us at 307-235-6212

* Extra emails are at \$3.50/mo

** Extra backup is at \$5/mo/GB

Certain restriction apply
